Bremer Taken To Hospital

Jessup, Md. (AP) — Arthur H. Bremer, the accused assailant of Gov. George C. Wallace, was moved Monday from the Baltimore County Jail to Clifton T. Perkins State Hospital, the FBI said.

Thomas J. Farrow, special agent in charge of the bureau's Baltimore office, said Bremer, 21, was transported between the two institutions, a distance of some 20 miles, in the presence of "several" FBI agents.

Farrow said the former busboy from Milwaukee would be protected while at Perkins by the same tight security measures that have existed at the jail since his arrival there late May 15, the day Wallace and three other persons were shot at a shopping center in Laurel, Md. He is being held on \$400,000 bail.

The agent added, however, that he had "absolutely no idea" how long Bremer might be detained at the state hospital.

Last Wednesday, Benjamin Lipsitz, Bremer's court-appointed attorney, entered pleas of innocent by reason of insanity to assault and gun law violation charges in the state case.
